

Buddy Transport

Challenge: Buddy needs to be transported to safety. Buddy is severely injured and cannot move much at all. Worse, because of unusual noospheric conditions, the rest of the floor is now toxic to Buddy, so do not let Buddy touch the ground.

Time: You have 5 minutes to read these instructions and use your imagination and teamwork to devise a strategy, and then 5 minutes to build and practice your solution.

Evaluation: At the end of the 10 minutes, you will be called up to bring your solution to the testing area. The judges will place Buddy, and you and your team have one minute to move Buddy from start to finish. The distance to travel is 10 meters, and your team will be scored based on how far you can transport Buddy a) without Buddy moving, b) without letting any part of Buddy touch the ground.

Setup:

- 2 gateway poles
- Your Ten Essentials kit

Scoring:

You will receive

- Up to 20 points for how well your team works together
 - 5 pts for good cooperation
 - 5 pts for free sharing of ideas, no judgment
 - 5 pts for demonstration of leadership at all levels
 - 5 pts for contributions from every team member
- Up to 30 points for moving Buddy smoothly and safely from start to finish
 - 10 points for a smooth ride
 - 10 = Perfect ride, no movement at all
 - 1 = Limbs/body flopping around through the entire ride.
 - Up to 20 points for the amount of distance traveled without Buddy fatality.
